

Abedalla Sheikh Khalil

Computer Software Engineering

Education

2020-2024
(Be'er Sheva)

SCE - Shamoon College of Engineering
Bachelor of Science (BSc)

ECTS 197.25/240
Credits 131.5/160

Projects

Virtual Warehouse (Website):

- **Description:** Web application for managing and tracking equipment in a visual communication department's virtual warehouse.
- **Technologies:** Java Spring Boot, React JS, CSS/SCSS, PostgreSQL
- **Role:** Full-Stack Developer

Quick Entry (Android App):

- **Description:** Developed the first version of an Android application for managing the smart green card examination system. The app enables users to quickly display and verify the green signal using the NFC system.
- **Technologies:** Android Studio, Java, Firebase, XML
- **Role:** Android App Developer

Medical Diagnosis (Windows Application):

- **Developed:** a medical diagnosis application that analyzes blood test results to provide educational diagnostic insights. The application is designed for educational purposes only, aiming to assist students and medical professionals in understanding diagnostic patterns.
- **Technologies:** Java, JavaFX, SceneBuilder
- **Role:** Java Developer

Software Applications

Integrated Development Environments (IDEs):

- IntelliJ IDEA
- Visual Studio Code (VSCode)
- PyCharm
- Android Studio

Database Management:

- MySQL
- pgAdmin (PostgreSQL)
